

# MOVE UTAH SUMMIT

Thursday, September 26, 2019 | 7:30 a.m.-4:30 p.m.

A UDOT Program

Little America Hotel

500 Main Street, Salt Lake City, UT 84101

TRACK	10:00 a.m. to 11:00 a.m.	11:15 a.m. to 12:15 p.m.	2:00 p.m. to 3:00 p.m.
<b>TRANSPORTATION ROOM-ARIZONA</b>	<b>Can an App Kill The Personal Car?</b>	<b>Prioritizing a Vision</b>	<b>Self-Driving &amp; Flying Cars: What the Health?</b>
	Mobility as a Service (MaaS) is quickly becoming a reality. Will the convergence of smartphone apps and innovative technologies reduce the need to drive your car?	UDOT and its partners are developing Utah's first-ever statewide transportation vision. Hear directly from the experts developing the newest models for prioritizing projects and learn what it takes to secure transportation funding for your community.	Disruptive transportation technologies have the potential to fundamentally reshape our communities. What will autonomous vehicles operating on the ground and in the air mean for our health and well-being?
	<b>Panelists</b>	<b>Panelists</b>	<b>Panelists</b>
	<b>Angelo Papastamos</b> , TravelWise Manager, UDOT	<b>Richard Brockmeyer</b> , Senior Transportation Planner, UDOT	<b>Travis Olson</b> , Community Health Educator, Weber Morgan Health Department

<b>Jeremy Neigher</b> , General Manager, Lyft		<b>Josh Channel</b> , Senior Transportation Planner, Parametrix	
<b>Marc Mortensen</b> , Support Services Director, St. George City			
<b>LAND USE ROOM-WYOMING</b>	<b>What's at the Heart of a Healthy Community?</b>	<b>How to Move Utahns</b>	<b>Getting Point A Closer to Point B</b>
	What does transportation funding have to do with housing affordability? How can statewide policies improve the health of a community? Learn about recent changes in state law and how they will affect you.	This session explores how health, transportation and land use can converge to form livable communities through proactive planning of bicycling and walking infrastructure. Planning is becoming increasingly important in helping communities identify shared, implementable goals that improve residents' health and well-being.	There are a number of benefits to reducing the distance between origins and destinations, including improved mobility, additional transportation choices, increased access to educational and employment opportunities and better health outcomes. Learn directly from cities that are putting plans into practice and what challenges and successes they have encountered along the way.
	<b>Panelists</b>	<b>Panelists</b>	<b>Panelists</b>
	<b>Beth Holbrook</b> , Board of Trustee, Utah Transit Authority	<b>Katie McDermott</b> , Design Review Manager, Daybreak Communities	<b>Jason Glidden</b> , Economic Development Project Manager, Park City
	<b>Cameron Diehl</b> , Executive Director, Utah League of Cities & Towns	<b>Laura Hansen</b> , Planning Director, UTA	<b>Alex Murphy</b> , Associate Planner, Midvale City

<b>Jen McGrath</b> , Interim Director of Community & Neighborhoods, Salt Lake City			
<b>HEALTH ROOM-IDAHO</b>	<b>Wellness Benefits of Connected Communities</b>	<b>The Cure for an Unhealthy Community</b>	<b>Transportation and Land Use: Social Determinants of Health</b>
	Loneliness and social isolation are associated with depression, decreased cognitive function, increased blood pressure and cholesterol and even premature death. Learn how you can develop social cohesion and improve mental health in your organization and community. You may even walk away with a prescription to enjoy the outdoors.	Utah's population is projected to nearly double by 2065. This rapid growth may significantly impact Utahns' health and quality of life. Experts will discuss the DNA of unhealthy communities and how a cross-sector approach to solving challenging issues can help us find the cure.	This session will provide an overview of social determinants of health and discuss the role they play in quality of life outcomes. Experts will highlight efforts to address upstream social determinants of health that include transportation and land use decisions.
